NO. 2

## IS RIDICULED IN JAPAN

Yankoes of the Orient Hoot at the Alleged Lapsing of the Manchuria Treaty.

### BUT JAPAN PREPARES FOR WAR

Probability of a Resort to Arms, However, Is Discarded in High Places.

Yokohama, Oct. 13.—The announcement by M. Lessar, the Russian minister to China, that the Manchurian convention between Russia and China has lapsed is received here with ridicule. Dispatches from Che-Foo report that a Russian warship and a transport with 500 troops left Port Arthur

NICHOLAS II, CZAR OF RUSSIA.

Oct. 4 for Korea. The Russian forces at New Chwang are reported to have been increased. General Kodama, the Japanese home minister, has been appointed chief assistant to the military staff. The premier and the ministers for war, navy and foreign affairs have had a simultaneous audience of the emperor.

### Japan Must Have a Ricker.

Paris, Oct. 13.—Speaking of the Russo-Japanese situation, M. Flourens, the former foreign minister of France, said: "Japan must have another power behind her or else she will not take the offensive." An attack of the foreign office informed the Associated Press that he did not think Russia would draw France into a conflict at present. He added that the cabinets at St. Petersburg and Paris are in complete accord, and expressed the opinion that the postponement of the czar's visit to Rome was not due to the attitude of the socialists, but to the situation in the far east.

### No Alarm Felt at Washington.

Washington, Oct. 13.—At the Russian embassy the officials are not alarmed over the situation in the far east. The view held there is that neither Russia nor Japan desires war, though both may be making preparations to that end, and that there is really no question at issue which cannot be settled without recourse to arms, provided the negotiating parties are disposed to use diplomacy rather than the sword. The embassy has received no advices from St. Petersburg for more than two weeks.

### JUST WHAT WILL NEXT HAPPEN

Is Not Known Either at London or Paris—Noteworthy British Fact.

London, Oct. 13.—There is no confirmation of the alarmist rumors relating to the far east. At the Japanese legation no news had been received of the reported ultimatum. A dispatch to The Daily Mail from Kobe, Oct. 12, reports that the situation is somewhat easier, but that the tone of the press is distinctly bellicose, whilst the same paper's correspondent at Geneva says that several Russian officers there have been suddenly recalled to join their regiments.

Other special dispatches describe Russian war preparations, etc.; and the newspapers, which are intensely interested in the developments, owing to the Anglo-Japanese alliance, are already publishing maps and estimates of the naval and military forces of the prospective belligerents and editorializing on the possibilities of the situation.

It is noteworthy that the king has just approved the appointment of Vice Admiral Sir Gerard Noel as commander-in-chief on the China station. Vice Admiral Noel is an officer of great energy and decision. It was he who cleaned the Turkish troops out of Crete because of an insult to the British flag.

Paris, Oct. 13.—The Figaro publishes an interview with M. Kurino, the Japanese minister here, on the subject of the dispatch to the Frankfurter Zeitung from Shanghai to the effect that Japanese have occupied Ma-San-Pao, and that an official declaration of war is expected. M. Kurino said the source of the dispatch was suspicious, as Shanghai was notorious for the originating point of bogus news. He personally had not received any confirmation of the report.

Bilbao, Spain, Oct. 13.—As a result of the collision between Socialists engaged in a demonstration and a body of Clericals seven persons were killed and thirty-three were wounded, some of the latter being mortally injured, including the manager of The Pueblo, a newspaper. Among the wounded is Superior Louis Dautier, of the Christian Brothers' schools.

Revolvers were fired from the Roman Catholic club and from the windows of the church of St. Nicholas. The vicar of that church was arrested on the charge of shooting several Socialists, and several other priests were arrested, charged with instigating riots. During the fighting the anti-Clericals threw a priest into the river.

### REDUCTION OF EXPENSES

Results in the Discharge of 900 Men in Vanderbilt System Railway Shops.

Cleveland, O., Oct. 13.—At the headquarters of the Lake Shore road here it was stated that probably not to exceed 400 men would be dismissed by that company as a result of an order sent out from New York to reduce the force of help in all shops on the Vanderbilt system wherever possible. Riot in Which the Mob Attacks the Police and Forty Rioters Are Run In.

San Juan, Porto Rico, Oct. 13.—Governor Hunt has returned here from Ponce, where he attended a banquet in celebration of the extension of United States railways in the island. He was everywhere received with demonstrations of confidence and esteem. During the governor's absence the anti-United States socialists and anarchists had a clash with the police on the plaza of this city. Forty arrests were made and many of the prisoners were convicted and sentenced to six months imprisonment, including the Anarchist Conde, who was recently convicted of insulting the United States flag.

### Socialists Attack the Police.

The clash was due to the socialists, who attacked the police. The latter ordered the mob to disperse and on meeting with a refusal they used their clubs freely. United Statesians here are particularly incensed at the carrying of black and red flags and a craped United States flag by a mob, as an incitement to disorder. Conde delivered a very offensive harangue, in which he approved of the mob resorting to bloodshed if necessary.

### Death Blow to Anarchy Demanded.

The United Statesians demand the punishment of all the dangerous socialists, and are overwhelming Governor Hunt with assurances of support in a vigorous campaign to uphold law and order. They urge that an immediate death blow be given to anarchy here. The city now is quiet. More of the men arrested for attacking the police will be tried today.

Mrs. Steinberg brought pictures taken after the worst of the massacre, and confirms all of the stories of horror. She says the reports were mild compared with the awful facts. ### TORCH ONE OF THEIR WEAPONS

Houses and Factories Set on Fire and Troops Defied—Mob Is Finally Dispersed.

Armentieres, North France, Oct. 14.—This town was given up to riot, pillage and incendiarism as a consequence of the weavers' strike. Nothing foretold the serious disturbances about to occur, but at noon the strikers, not receiving answers to their demands from the employers, broke out into the wildest excesses. A mob of 6,000 gathered in the great square and urged the troops stationed there to throw down their arms, shouting "Down with patriotism!" The rioters then spread through the principal streets, breaking the windows of the stores, and dragging out the huge display rolls of linen, which they stretched across the streets with the object of impeding the advance of cavalry.

### Mob Begins to Use the Torch.

They wrecked shops, sacked the houses of persons obnoxious to the ringleaders, and attacked the banks, in two of which they succeeded in stealing a few hundred dollars from the tills. One gang set fire to a large quantity of linen in the cellars of Messrs. Becquarts' factory, others broke the windows of houses and threw inside burning straw. The troops, hampered by the obstructions thrown in their way by the rioters, were for a long time unable to disperse the mob. Finally a determined charge by lancers restored temporary quiet.

### Women and Boys Take a Hand.

After dark the rioters tore up the sewer gratings and paving stones and stretched wires across the streets. Women brought piles of empty bottles for use as missiles, while boys swarmed up the lamp posts and extinguished the gas jets. In spite of the efforts of the soldiery the rioters then proceeded to sack the houses, dragging out the furniture, saturating it with petroleum and setting fire to it in the street. Fire was put to two houses belonging to the strikers' employers, and one big factory. The local brigade being inadequate to cope with the conflagrations an urgent appeal was sent to the neighboring town of Lille, whence a steam pump and reinforcements of firemen were sent.

### Law Gains the Upper Hand.

By midnight, however, the troops and police had gained the upper hand and dispersed the mob. The streets are now deserted, except for the armed patrols. As soon as the prayer was finished the first of the Zion Cityers pulled out for New York. At half hour intervals the other trains left Zion City.

All the crusaders have made heavy sacrifices for the trip. The people at home have been commanded not to get sick, and new sets of officers have been provided to look after them. ### BETTING FAVORS BOOKWALTER

Odds in Big Wagers in the Indianapolis City Election Are 7 to 5—Campaign Peculiarities Noted.

Indianapolis, Oct. 12.—The most bitter local campaign ever conducted in this city has closed with largely attended meetings in the interest of the three leading candidates. The betting is an unusual feature of the closing days, and it is estimated that fully \$100,000 is wagered on tomorrow's result. The smaller bets have been, as a rule, on a basis of 2 to 1 in favor of Mayor Bookwalter, but the odds on larger bets were 7 to 5 and in a few cases even bets have been made that Bookwalter will have 1,000 majority.

A peculiar condition of the campaign is that many of the best-known Republicans in the city are opposed to Mayor Bookwalter, the party nominee, and many Democrats are opposed to Holtzman, the Democratic candidate. The indications point to a heavy Democratic vote for Bookwalter, and a heavier Republican vote for Holtzman. Geo.
